

GIBA Toll Building Alterations and Reroof Project
Update 10/11/17
Contract Duration: 90 days from permit issue date of 9/29/17

Week One: The scaffolding and safety netting is being installed. Week two will include the tear down of the old roof and the new trusses delivered.

During active construction hours Monday-Friday two on island traffic lanes will remain open with the exception of material deliveries or equipment shifts. There will be lane shifts during the course of the project therefore all traffic should approach the toll plaza at 5 mph. Workmen will be present and the speed limit will be strictly enforced.
